This is our basic service package. It includes everything necessary for a simple cremation.

- Essential services of our staff to coordinate arrangements with the family and to complete the certificate of death and cremation permit
- Securing physician's or coroner's certification of death
- Ordering certified copies of the death certificate per family requirements
- Dignified care of the deceased with refrigeration (no embalming)
- Preparation for cremation and the cremation process at our on-site Crematory
- "Standard" hardboard cremation container, including sales tax
- Temporary container for the cremated remains
- Disposition permit and one certified copy of the death certificate
- For deaths outside of our local area (but within the State of California) we will arrange cremation with a provider of our choice at no additional charge.

If you want to arrange a direct cremation, you can use an alternative container. Alternative containers encase the body and can be made of materials like fiberboard or composition material (with or without outside covering). The alternative containers we provide are constructed of composite hardboard. You may also choose to provide your own container as long as it meets the crematory and/or legal requirements, i.e., it must be rigid, opaque and leakproof, or you may choose to select a wood casket. If you provide your own container/casket, you will be credited the price of the "Standard" alternative container (\$295).
